| <b>The following are criteria for this project.</b>  | Highly Effective       | Effective | Needs Improving | Ineffective |
| <b>Design &amp; Aesthetics:</b> Surrealistic composition maintains good proportions and unity. Resolution is clear. Seamless photo transitions.                                |                        |           |                 |             |
| <b>Composition:</b> Contains a minimum of 1 animate and 1 inanimate object. Objects create a Surrealistic subject or landscape.  |                        |           |                 |             |
| <b>Craftsmanship:</b> Neat, clean, and complete. Skillful use of Photoshop tools and actions: colorizing, cutting, cropping, etc.  |                        |           |                 |             |
| <b>Effort:</b> Took time to develop the idea and complete the composition. Utilized class time well.   |                        |           |                 |             |
| <b>Overall:</b> Surrealistic composition is original and unique (not borrowed from Internet/neighbor). All parts come together well. Result is clear and visually interesting. |                        |           |                 |             |
