

# Reverse Photo Silhouette

## Goal:

Create an art piece of yourself that has meaning and is aesthetically pleasing.

## Details and Requirements

- Have a silhouette cut out of yourself
- Photo inside your silhouette (can have more to add depth and texture)
- Background photo

## Planning

- Use the back of this sheet to plan out your photo project with a sketch

## What you'll be graded on...

- Visual: Composition and style
- Detail: Craftsmanship
- Deadline: Friday Aug. 28

## Instructions

- Find your photo.
- Unlock background
- Cut out using pen tool (use multiple paths if you have inside cuts...DON'T DELETE)
- Activate path
- Select Inverse
- Delete Background
- Keep path
- Delete silhouette
- Paint Bucket black
- New layer
- Copy photo and paste on new layer
- Create clipping mask
- Create new layer and paste background

These are the BASIC instructions. You should manipulate your photos to be on the level of the examples.
