

Express Yourself - Color & Form

Goal:

Students will create a portrait using watercolor and color pencils on brown kraft paper.

Students should get creative in their approach. The idea is to choose an expression or point of view that showcases their subject's personality. Or, challenge this approach and come up with an original version of 'self portrait'. The focus is on color scheme and form.

Portrait in Color Pencil

100 points

Score _____

Criteria

	highly effective	effective	needs improving	ineffective
Proportion and Scale: Subject is proportional and to scale. Facial features are proportional and show depth				
Color Pencil Application: There is a consistent application of pencil. Colors are rich and have depth, show contour.				
Craftsmanship: The project is done neatly. Pencil is thick and consistent. Paper quality is maintained.				
Color A wide range of value is represented. Color scheme best represents portrait 'mood'. All colors help create depth and dimension.				
Effort: Time in class was used daily. Questions were asked when problems arose. Student worked to the best of his/her ability.
