

Step 1: Loading your photo in Photoshop

1. Open your photo from It's Learning
2. Create a new document in Photoshop > File > New Document
3. Set document at Units: Inches; Height: 7; Width: 5.5; Resolution: 300
- If it's landscape mode, just switch the dimensions H:5.5;W:7

4. On your photo document, RIGHT click and copy the photo. In PHOTOSHOP, hit CTRL+V to paste your photo in to Photoshop. Or, if you have downloaded your photo, you can place it in Photoshop. You can use your selection tool to drag (click & hold) it in to your 5.5x7 document.

5. Resize your photo to fit on your new document. **Hold the SHIFT KEY WHILE** you drag the corner of your photo. This will maintain your proportions.
