

VALUE

Take **2** pieces of 12x18" paper.

Using a ruler, divide your paper in to 18 even squares (3 inch squares).

Tint = Color + White

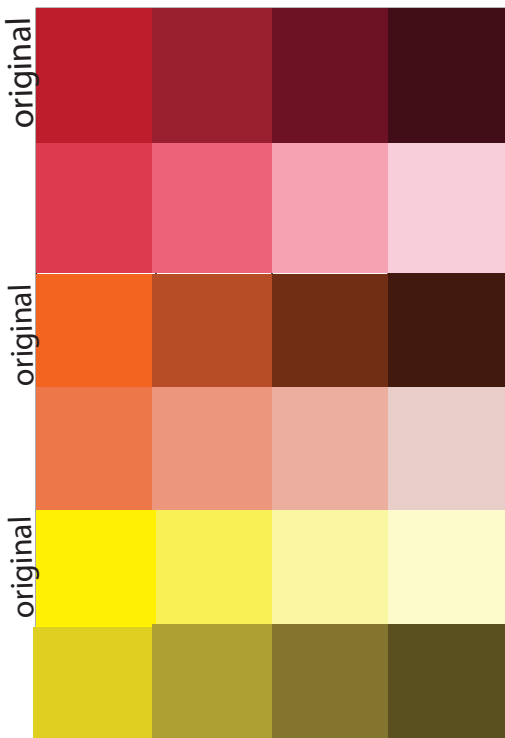

Shade = Color + Black

**Always start with the lighter value and the darker value to it.

Add red TO white paint.

Add black TO red paint.

**Clean your brush before switching between tints & shades!!!

Paint 4 Tints and 4 Shades of the following colors:

Red

Orange

Yellow

Green

Blue

Black

***Make sure ONE square is the original color from the bottle of tempera paint.
